TABLE OF CONTENTS

Oliver Carrier Jr. Memorial Symposium
Cardiovascular Supersensitivity
Chairman: J.H. McNeill

TENNER
Reserpine induced cardiac supersensitivity 1
HESTER, CARRIER
Involvement of calcium in reserpine induced supersensitivity in vascular smooth muscle 5
SHIBATA
Supersensitivity of vascular smooth muscle following cold storage 11

Session: Neuropharmacology I
Chairman: K. Killam

GIACOBINI
Cholinergic receptors in synaptogenesis: drug-receptor interaction during development 15
LIGHT, MESSIHA, KOPETZKY, HUGHES
Effects of adaptation to simulated high altitude and ethyl alcohol on cardiac responses to a cholinergic drug and calcium
MESSIHA
A pharmacotherapeutic rationale for the use of lithium carbonate in Tourette's syndrome 27
MESSIHA, BARNES, HUGHES, LIGHT
Behavioral effects of cyclobenzaprine 31
GINTAUTAS, BARNES
Effects of cyclobenzaprine on the Locus ceruleus 37
ROSENKRANZ, KILLAM
Potentiation of pentylenetetrazole and electroshock induced seizures by prostaglandin $F_{2\alpha}$ 43
ROTH, MacIVER
Alteration of neuronal behavior by anesthetic agents 47

Session: General Pharmacology
Chairman: C. Hilado

PUFFER, FRASHER, NETTO, MARCUS, GOLDWATER
Drug distribution studies: a possible new approach using intravital microscopy and a spatially discriminate isotope detector 53
DICKINSON, KAUFMAN, LYNN, COOK, NOVY, GERBER
Materno-fetal pharmacokinetics and fetal distribution of valproic acid in the monkey 57
GEISELMAN, VANDERWEELE, NOVIN
Food intake following hepatic portal infusion of glucagon in intact and vagotomized rabbits 63

MYERS, RUNION, O'BRIEN
Development of a microprocessor based screening technique for anti-inflammatory drugs 67
KEENAN, KEMP, RAMSEY, PEARSE, HODGES
The relationship between the concentration of prolactin receptor and the responses of the prostate gland and seminal vesicles to ergocryptine 73
JONES
Spin label study of hemoglobin membrane interactions in normal and sickle erythrocytes 79
KEENAN, KEMP, RAMSEY, STORMSHAK
Effect of 17β-estradiol on estrogen and progesterone receptors in the sheep mammary gland 87
MARSH, FENNESSEY
Detection and quantitation of steroid levels 91
HILADO, van BREDA KOLFF, FURST
Effect of weight control and restraint on laboratory rats 97

Session: Metabolism
Chairman: S.S. Parmar

KOPETZKY, HUGHES, MESSIHA
Simulated high altitude and ethanol metabolizing enzymes in the rat 101
MAYNARD, CHO
The oxidation of n-hydroxyphentermine by various oxidase systems 105
SEN, PARMAR, GUHA
Rat heart monoamine oxidase: antagonism between d-amphetamine, oleic and arachidonic acids and monoamine oxidase inhibitors 109
BLANKENSHIP
Metabolic conversion of N^1-acetylspermidine to putrescine by a subcellular fraction of rat liver 115
MUAKKASSAH, LOWERY, BIDLACK
Multiple drug metabolism in hepatic subcellular fractions 119
MESSIHA
Disulfiram inhibition and pentobarbital induction of rat testicular aldehyde dehydrogenase 125
GREEN, OMAYE
Effect of thiamin status on drug metabolism in mice 129
MESSIHA
Epididymal alcohol and aldehyde dehydrogenases in rodents 133

Session: Neuropharmacology II
Chairman: D. Overstreet

SONDEREGGER, O'SHEA, ZIMMERMAN
Progeny of male rats addicted neonatally to morphine 137

WADE, KREWSUN, QUOCK
Differentiation of the central dopaminergic stimulants apomorphine and lergotrile 141
MARTIN, QUOCK
Stabilization of apomorphine induced hypothermia in the okamoto-aoki spontaneously hypertensive rat by chronic lithium treatment 143
MURRAY, HORITA
Effects of monoamine oxidase inhibitors on phencyclidine induced stereotyped behavior and brain levels in rats 145

Session: Biogenic Amines
Chairman: N. Weiner

JEFFERY, GARCIA, AVNER
Corticosteroid potentiation of catecholamine bronchodilator drugs: possible mechanisms of action 149
MASSERANO, TAKIMOTO, WEINER
Tryrosine hydroxylase activity in adrenal medulla of rats following acute and chronic administration of ethanol 155
DIXON, MOSIMANN, WEINER
Effect of methacholine on nerve stimulation mediated release of norepinephrine and dopamine-β-hydroxylase from isolated perfused cat spleen 159
ANDREWS, WEINER
Evidence for the involvement of a cyclic AMP independent protein kinase in the activation of rat striatal tyrosine hydroxylase 163
TAKIMOTO, WEINER
Properties of tyrosine hydroxylase in rabbit portal vein: comparison of pentobarbital anesthesia with stunning and decapitation 169
AARONS, NIES, GAL, MOLINOFF
Increased human lymphocyte β-adrenergic receptor density following chronic propranolol treatment 175
AVNER, WILSON
Possible existence of "spare" β-receptors in rat tracheal smooth muscle 177
LUM, LAU, LOCKWOOD, KUO
The hyperglycemic response to α and β adrenergic agonists in the cat 183

Session: Toxicology
Chairman: R. Huxtable

HILADO, BRAUER, OLCOMENDY, FURST
Effect of temperature and air flow on toxicity of pyrolysis gases 189

EISENSTEIN, AZARI, HUXTABLE
Attenuation of the toxicity of a pyrrolizidine alkaloid (monocrotaline) by metabolic inhibition 193
HILADO, BRAUER, OLCOMENDY, FURST
Toxicity of gases from smoldering combustion 199
HILADO, MACHADO, BRAUER
Effect of char yield and chemical structure on toxicity of pyrolysis gases 201
CASTILONIA, PATTABHIRAMAN, RUSSELL
Neuromuscular effects of fractions of Crotalus scutulatus scutulatus venom 205
HILADO, BRAUER, OLCOMENDY, FURST
Toxicity of pyrolysis gases from synthetic polymers 209

Poster Session

SCHOPP, DeCLUE
Antagonism and synergism of α and β bungarotoxin in the dog 213
QUOCK, LUM, SMALL
Interaction of N,N-dimethyltryptamine with central neuroaminergic receptor blocking agents 217
STRAHLENDORF, STRAHLENDORF, BARNES
A possible interplay of GABA with serotonergic and noradrenergic systems in the cerebellum 219
STRAHLENDORF, STRAHLENDORF, BARNES
Neurotransmitter systems mediating inhibition of intralaminar thalamic unit activity 223

Session: Polypeptides/Autocoids
Chairman: J. Buckley

LEDERIS, KO, LEUNG, McARTHUR, DEACON, McMILLAN, PARBOOSINGH
Circulating antidiuretic hormone in the human newborn 227
JANDHYALA, LOKHANDWALA, BUCKLEY
Circulatory effects of chronic administration of angiotensin II into the lateral cerebroventricles of dogs 231
SCHLEIMER, LEUNG, PETERSON, BENJAMINI
Immunochemical studies on the enkephalins and endorphins 235
MOORE, KWOK, ROSENIOR, KO
Hormonogenic activity and immunoreactivity of extended chain analogs of (arginine^{8}) vasopressin 241
ADDO, ISOM
Chronic intracerebroventricular infusion of angiotensin II 247
SCHLEIMER, BENJAMINI
Specificity of mouse leukocyte binding to insolubilized histamine 251

BIGGS, PETERSON
Comparison of the effects of histamine and serotonin on dynamic pulmonary compliance and pulmonary flow resistance in anesthetized guinea pigs 257

Session: Carcinogen/Chemotherapy
Chairman: E. Keenan

WHEELER, HALULA, DeMEO
Comparison of prophage induction and mutagenicity in Ames tester strains by alkylating agents 261
POPENOE
Pulmonary effects of intratracheal cyclophosphamide 265
FURST, van BREDA KEOFF, DEMPSEY
Pulmonary tumor induction: three hydrocarbons compared 269
CANTRELL, MARSHALL, McLEMORE, GHANAYEM, BUSBEE
Secondary metabolism of benzo(a)pyrene in human cells 273
KEENAN, BACON, GARRISON
Relationship between peroxidase activity and steroid hormone receptors in human breast cancer 277
von HOFE, DUNCAN, BEAL, MONDAL, PUFFER
Hydrocarbon pollution of the oceans: secondary metabolites of a carcinogen in fish 281

Symposium: Cellular Calcium and Cell Regulation
Chairman. C.P. Bianchi

BIANCHI
Regulation of aerobic metabolism of frog skeletal muscle by calcium, cyclic GMP and cyclic AMP 285
VINCENZI
Calmodulin in the regulation of intracellular calcium 289
PUTNEY
Receptor regulation of calcium channels in exocrine gland cells 295
LAKSHMINARAYANAIAH, BEIRAO
Calcium system of a giant barnacle muscle fiber 301
FRANK
Surface membrane bound calcium is the main source of trigger calcium for excitation-contraction coupling in vertebrate skeletal muscle fibers 309
TAYLOR, LOPEZ, SHLEVIN
Calcium movements in relation to muscle contraction 321
BIEGON, PAPPANO
Regulation of calcium dependent action potentials by neurotransmitters in embryonic heart muscle 327
WEISS
Delineation of drug induced alterations in calcium distribution in vascular smooth muscle 333

Poster Session

MESSIHA, SPROAT
Effect of pyrazol on rat liver alcohol dehydrogenase in vivo 339
MESSIHA, EL-DOMEIRI, HSIA, SPROAT
Enhancements of tumor growth by lithium salt in mice 343
MESSIHA, SPROAT, HSIA, EL-DOMEIRI
Cesium reduction and rubidium potentiation of tumor growth in the mouse 347
de GROOF
Effect of solvents on the in vitro uptake and distribution of diazepam 351
HUSAIN, LAME, DeBOER
Rat testicular tissue glucose metabolism in the presence of delta-9-tetrahydrocannabinol 355
CERRETA
Changes in brain Ca^{++} ion during development of tolerance to pentobarbital 359
OWEN, CARRIER
Alteration in vascular smooth muscle sensitivity to vasoconstrictor agents by streptozotocin induced diabetes 363
CIOFALO
Chronic alcohol ingestion and α-adrenergic receptor characteristics 367

Symposium: Drugs and the Developing Nervous System
Chairman: A. Vernadakis

TIMIRAS
Distribution, development and function of thyroid hormone receptors in the brain 371
CRAIN, CRAIN, PETERSON, SIMON
Selective depression by opiates and opioid peptides of sensory evoked dorsal horn network responses in organized fetal mouse spinal cord cultures 375
VERNADAKIS
Neuronal glial inter-relationships during neural growth in culture 379

Session: Cardiac
Chairman: D. Cook

PRIOLA, O'BRIEN, CURTIS
Differential effects of cholinergic stimulation on atrial conduction and contractility 383
AZARI, BAHL, HUXTABLE
Guanidinoethyl sulfonate and other inhibitors of the taurine transporting system in the heart 389

KATZ, DOBOVICNIK
Possible localization of adenylate cyclase in microsomal fractions of cardiac muscle enriched in sarcoplasmic reticulum 395
DUBICK, HANASONO, YANG
Metabolic effects of chronic emetine treatment 401
McNEILL, SIMPSON
Adrenergic responses in atria from euthyroid and hypothyroid rats 407
DUBICK, YANG
Mitochondrial creatine kinase and myokinase activity after chronic emetine treatment 411
LONGHURST, McNEILL
Effects of isoproterenol on isolated heart preparations from normal and hyperthyroid rats 415
LAHER, McNEILL
Histamine responses in cat heart 419

Session: Cardiovascular/Smooth Muscle
Chairman: D. Priola

MacLEOD, RODGERS, McNEILL
Comparison of cardiac responses to glucagon in the rat and guinea pig 423
COOK, WEIR, OKAWUASABA, KRUEGER
Effects of hemoglobin on smooth muscle 429
GIRAUD, MacCANNELL
Decreased nutrient blood flow during intestinal vasodilation 435
OKAWUASABA, WEIR, COOK, KRUEGER
5-Hydroxytryptamine and vasospasm induced by subarachnoid hemorrhage 441
MEISHERI, McNEILL
Possible regulatory role of Ca^{++} in isoproterenol induced increases in cAMP levels in uterine smooth muscle 447
GOLDBERG, ROBERTS
Effects of aging on responsiveness to cardiovascular drugs 451

Session: Opiates
Chairman: G. Isom

TAYLOR, RODGERS, LYNN, GERBER
Plasma and semen kinetics of naltrexone in the rabbit 455
McGILLIARD, WILSON, OLSEN, BARTOS
Stereospecific radioimmunoassay of d- and l-methadone 463
SHERMAN, LEWIS, LIEBESKIND
Differential effects of extinction of conditioned hyperthermia and analgesic tolerance to morphine 467

MEULLER, DUNWIDDIE, PALMER, LEE, STEWART, HOFFER
Enkephalins and hippocampal neuronal circuits 471
ZOBRIST, ALLERTON, ISOM
Effect of D-ala^2-methionine-enkephalinamide on respiration 475
BAJOREK, CHESAREK, FELMAR, LOMAX
Comparative thermoregulatory effects of opioids in the rat and the mongolian gerbil 479
A-WAHID, MEISHERI, ISOM
Suppression of morphine physical dependence and tolerance by immune activation 483
